## **NSAC Advice Ref. 01-1819**

### **NSAC Response to Consultation on the Joint Recommendation on Technical Measures in the Skagerrak from the Scheveningen Regional Group**

This paper was approved by the NSAC Executive Committee on the 13<sup>th</sup> March 2019 via a fast track written procedure.

The NSAC can support the content in the Joint Recommendation concerning the joint RTC rules between EU and Norway for *Pandalus Borealis* and the change of the minimum mesh size for Danish Anchor Seine in the Skagerrak.

However, we do hope that the Scheveningen Group in the future will make sure that the NSAC do get appropriate time to respond on any consultation.

**NSAC is Supported by The European Commission**

NSAC advice is developed and approved by the Members of the NSAC. The European Commission is not involved in the development or approval of NSAC advice and is not responsible for any use that may be made of the information it contains.
